TABLE-TOP FRYERS

“TF SERIES”

Top-quality components

Valentine has developed a table-top fryer which satisfies the expectations of even the most demanding customers, with a top-quality finish and an excellent quality performance.

Drain valve

All TF models (except MAXI5) are fitted with a front drain valve allowing you to recover the oil.

Three-part fryer

For greater safety and easy maintenance, the TF series is divided into three parts – the control unit, the tank and the chassis. The last two components can be washed in a dishwasher.

Tank pressed from one piece of metal, without welding

Valentine has developed a tank pressed from one piece of metal. The absence of welding and the rounded corners make it easy to clean and guarantee optimum hygiene.

Available
for all models.
